

Clinical or Community Partnerships

Midland College ADN

Regency Hospital, Odessa, TX

Regency Hospital has agreed to join with Midland College ADN program to increase the number of graduates through the provision of a qualified staff member to serve as a faculty member. The MSN prepared staff member has numerous years experience as a nursing educator. Midland College will enroll an additional six to ten nursing students into the LVN to ADN transition program. The Regency staff member will be given leave time to teach the program content and supervise clinicals for this group of students.

Approximate cost of implementing and maintaining partnership: Regency Hospital is paying faculty salary; no additional significant costs anticipated for Midland College

Grant monies used: no

Expected benefits from partnership:

- increase in nursing graduates
- Regency Hospital will provide a much needed faculty position to serve the West Texas area

Challenges from partnership: none listed
